

ASAHIKAWA MEDICAL COLLEGE
RESEARCH BULLETIN
VOL. 10

CONTENTS

Commissions

Discovery of three new collectin families ...OHTANI Katsuki / SUZUKI Yasuhiko / WAKAMIYA Nobutaka 2

Let's Breast Cardiovascular Disease ~My Way via Giraffe to Spa~HASEBE Naoyuki 13

An Instructional Study on Basic Formation of Nursing Ethics in Nursing EducationINABA Yoshie 23

Factors affecting the changes in utilization of blood products at the Asahikawa Medical College Hospital in 1990 to 2008.KINO Shuichi 41

EssaySAMEJIMA Natsuki 52

Submissions

Pro-Drop and Verb Second in Old French :
A Weak Phonological Approach to X-second PhenomenaMIYOSHI Nobuhiro 56

An analysis on the utilization of the medical institution, and the cooperation between medical institutions: A case in the northern Hokkaido area
...SUMITOMO Kazuhiro / IZUMIDA Nobuyuki / NOGUCHI Haruko / KIKUCHI Jun / HASEBE Naoyuki 64

Commissions

2008 Innovative Research in Life Science

1) The effects of myelin on nerve conduction and compensatory mechanismBANDO Yoshio 76

2) Immunocytochemical analyses on the heterogeneous distribution of the ER-resident chaperones in endocrine cells of the rat anterior pituitary gland.SAKAI Yuko 78

3) Roles of electrostatic interaction in the P-N hinge region of sarcoplasmic reticulum Ca²⁺-ATPaseYAMASAKI Kazuo 79

4) Functional interaction between human papillomavirus type18 E7 and centromere proteinYAGINUMA Yuji 80

5) Focal adhesion kinase as an immunotherapeutic targetKOBAYASHI Hiroya 82

6) Formaldehyde exposure in food affected mucosal immune systemNAKAGI Yoshihiko 84

7) Effect of hepcidin expressing adenovirus in a human hepatoma cell line, Hep3B and WRL68SASAKI Katsunori 85

8) Retinal transplantation using adipose cells as a donor cellTAKAMIYA Akira 87

9) Evaluation of Aβ hypothesis in Alzheimer's diseaseNAKAMURA Masao 89

10) Function and regulation of the Orai1 protein as a molecular component of calcium release-activated channels in smooth musclesMIYAZU Motoi 90

11) Olfactory Axonal Growth by TRP-Channel ActivationNOGUCHI Tomohiro 91

12) Molecular mechanism of neuronal migration disorder: Lesson from forebrain specific Cdk5 knockout mouse.....TAKAHASHI Satoru 93

13) Basic research on the cell based tissue engineering for superficial articular cartilage injury (2) ...ABE Satomi 94

14) MDCT evaluation of acute thoracic spine fracturesINAOKA Tsutomu 95

15) Efficacy of direct intracerebral drug administration in Rat Model of Brain Ischemia ...SATO Masao 96

16) Characteristics of Nursing Practice by Hospital Nursing Managers in the Northernmost Region of HokkaidoSUGIYAMA Sachiyo 97

17) Mathematical analysis of the optimal distribution of hemodynamics in the fractal-based microvascular network of the human retinaTAKAHASHI Tatsuhisa 99

18) Detection of the cancer stem cells on the formalin fixed paraffin embedded specimen.MIYOKAWA Naoyuki 101

19) Role of lipin-1 in the pathophysiology of metabolic syndromeTSUTIYA Yoshihiro 102

JICA "Health Administration for Regional Health Officer for Africa" training course
-Review after the 2nd training course- ...FUJII Tomoko / KITAMURA Kumiko / YOSHIDA Takahiko 104

Report of "Maternal and Child Health Course"KURODA Midori 111

News ...IWAMOTO Jun / SUZUKI Hiroshi / KOHGO Yutaka / SUZUKI Yasuaki / HARABUCHI Yasuaki / MATSUNO Takeo 116

Students' pagesSATO Hiroki 132
