## RESEARCH BULLETIN

### VOL. 11

## CONTENTS

### Commissions

Molecular mechanism of Ca-pump and diseases caused by its defects	SUZUKI Hiroshi	2
Construction and the practice of the section system of the operation department based on data accumulation	HIRATA Satoshi	14
Telepathology: The track for a decade	MIYOKAWA Naoyuki	21
Autonomic Nervous System and Cardiovascular Disorder Health Administration Center	KAWAMURA Yuichiro	37

Essay	TANIMOTO Mitsuhiko	46
-------	--------------------	----

### Commissions

#### 2009 Innovative Research in Life Science

1) Role of neurosin on the demyelination and remyelination	TANAKA Tatsuhide	48
2) A new microscopic technique for observation of the surface ultrastructure and molecular distribution of cellular organelles.)	WATANABE Tsuyosi	49
3) Function and regulation of the Orai1 protein as a molecular component of calcium release-activated channels in smooth muscles	MIYAZU Motoi	50
4) Modulation of Voltage-Gated Ion Channels on SH-SY5Y Neuroblastoma by Non-Ionic Surfactant, Cremophor EL	NOGUCHI Tomohiro	51
5) A search for mechanism of postmortem maintenance of tissue function. - Retention of chromatophores motility and ability of ATP synthesis, in molluscan.-	KATOU Sanae	53
6) The roles of the prostaglandin E <sub>2</sub> -EP <sub>4</sub> signaling in cerebral infarction and its clinical application; a study using mice lacking the EP <sub>4</sub>	KOJIMA Fumiaki	54
7) Analysis of specificity and dynamics for Birch pollen-related peripheral blood T cells	SATOU Keisuke	55
8) Functional analyses of collectin CL-P1 in development	OOTANI Katsuki	57
9) Formaldehyde exposure in food affected intestinal immune system	NAKAGI Yoshihiko	58
10) Relationship between Expression of Sirt1 in Endothelial Progenitor Cells and Endothelial Dysfunction in Severe Ischemic Heart Disease	OOTA Hisanobu	59
11) A drug for diabetic multiple organ complications	TAKIYAMA Yumi	61
12) Evaluation of the effect of reoxygenation to malignant potential in pancreatic cancer.	SASAJIMA Junpei	63
13) Fictive experimental model of neurogenic intermittent claudication	ATSUTA Yuji	66
14) The search for the pathogenesis of palmoplantar pustulosis	MURAKAMI Masamoto	67
15) Analysis of bladder vascular resistance before and after prostatic surgery in patients with BPH	WADA Naoki	68
16) Correlation between retinal arteriole-stiffness and systemic atherosclerosis	SATOU Eiichi	69
17) Identification of the genes causing azoospermia in human & Establishment of the novel diagnostic methods in male infertility	SATOU Hisashi	71
18) Efficacy of direct intracerebral drug administration in brain ischemic model of rats	SATOU Masao	72
19) The adipose tissue-derived stem cells for bone regenerative medicine	TAKEKAWA Masanori	73
20) Study on assay for human urinary exosomes	KAWABATA Isao	75
21) The role of CD69 in development of autoimmune disease	KIMURA Syouji	76
22) Hand Washing Motion of Nursing Students -Relation to Hand Washing Motion with Missed Washing Area-	MASUDA Yumiko	78
23) The distributions of vascular oxygen consumption and circumferential wall stress in the human retinal microvascular network.	TAKAHASHI Tatsuhisa	80
24) Universal scaling of <i>c</i> -axis dc conductivity for the underdoped high-temperature cuprate superconductors	HONMA Tatsuya	81
25) A $\beta$ undergoes chemical modification by functioning as antioxidants	NAKAMURA Masao	83
26) Establishment of in vitro fertilization technique with cholesterol -removed spermatozoa in the Chinese hamster	TATSUNO Hiroyuki	84
27) Matrix metalloproteinase-9 and hepatocyte growth factor in the cerebrospinal fluid of infants with posthemorrhagic hydrocephalus: Toward the development of novel therapeutic strategies for posthemorrhagic hydrocephalus	OKAMOTO Toshio	86
28) Genetic modification of PGE <sub>2</sub> regulates proliferation of Sca-1-positive cardiac stem cells.	TAKEHARA Naofumi	88

#### 2009 Innovative Research in Life Science

Research Cluster for Development of Vascular Research and their Clinical Application in Asahikawa Medical University.	KAWABE Junichi	90
The development of a novel therapeutic and diagnostic strategy for Multiple Sclerosis -Implications of Kallikrein 6 in neurological and skin diseases-	BANDOU Yoshio	94
JICA Training Course JFY2010 "Health Administration for Regional Health Officer for Africa"	YOSHIDA Takahiko • KITAMURA Kumiko	98
JICA Training Course of Maternal and Child Health - A Trial of Problem Solving Method Applying Nursing Process -	KURODA Midori	107

Condolences	ISHIKAWA Katsushi / FUJITA Satoshi • AKASAKA Nobuyuki / TANAHASHI Yusuke	111
News	ABURANO Tamio / ISHIKO Satoshi / ITOU Akira / TANIGUCHI Takano	123
Students's pages	SATOH Hiroki	130
Books	KAJINO Hiroki / TAKAKUSAKI Kaoru	133
Column	KURODA Midori	136
Material	FUJIO Hitoshi	140
Editor's Note / Cover Story		143
