

**ASAHIKAWA MEDICAL COLLEGE
RESEARCH BULLETIN
VOL. 9 NO. 1**

CONTENTS

Commissions

- Mental Health Nursing For Young PeopleSAKUMIYA Yoko 2
 Determining the status of copper in the urine of Long-Evans Cinnamon rats
 and patients with Wilson's diseaseSHISHIDO Naomi / NAKAYAMA Kenji / NAKAMURA Masao 11

- EssayKATAGIRI Makoto 24

Submissions

- Analysis of the Surgical Material Management System at the Operation Department of
 Asahikawa Medical College Hospital ...SHIBAYAMA Junichi / HIRATA Satoshi / SEGAWA Sumiko 26
 The Learning Gained by Nursing Students through a Simulated Clinical Setting
 in Environmental StructuringMASUDA Yumiko / ICHIO Akemi / TAKAOKA Tetsuko 34

Commissions

2007 Creative research in the field of life science -Project

- 1) The effect of heparan sulfate proteoglycans (HSPGs) on nerve regeneration ...MURAKAMI Kouichi 45
- 2) Diversity of Motility in Fish Spermatozoa Depends of Distinct Energy Metabolism ...HARUMI Tatsuo 46
- 3) Use of pest raccoons as a laboratory animal model for visual function study.....OHINATA Hiroshi 49
- 4) Mechanisms of taste disorder in cancer chemotherapyKAMIYAMA Naoya 50
- 5) Identification of Protein-Tyrosine Kinases in the Mouse Crypt Cells of the Drug-Induced
 Ulcerative Colitis Model.SMBBA Shingo 51
- 6) Human papillomavirus 18E7 protein binds to centromere protein CTAMAKAWA Susumu 52
- 7) Expression and functional role of MDL-1 (CLEC5A) in mouse myeloid lineage cells...AOKI Naoko 54
- 8) Formaldehyde exposure in food affected mucosal immune systemNAKAGI Yoshihiko 56
- 9) The Impact of the metabolic syndrome on chronic kidney disease :
 A new therapeutic strategy targeting adipocytokines for chronic kidney disease...NAKAGAWA Naoki 57
- 10) Regulation of Transcription and Secretion in Gut Incretin-producing cellsFUJITA Yukihiko 58
- 11) Analysis of the profile of endogenous antimicrobial molecule in the liverOHTAKE Takaaki 59
- 12) Frequent association of congenital cytomegalovirus infection with developmental disabilities
 in children who were asymptomatic during neonatal stageKOYANO Shin 61
- 13) Vein graft failure is associated with MMP-2-dependent smooth muscle cell motility ...UCHIDA Hisashi 67
- 14) Immunological study for cell-based tissue engineering of articular cartilageABE Satomi 68
- 15) Role of Podoplanin (PDPN) in sebocytesHONMA Masaru 69
- 16) Efferent projections from micturition suppressing region
 in the periaqueductal gray of the mesencephalonNUMATA Atsushi 70
- 17) Incidence of Endogenous uveitis at Asahikawa Medical College HospitalKINOUCHI Reiko 72
- 18) The importance of students' understanding of patients in Mental Health and
 Psychiatric nursing practice: from the follow-up report by the fourth year students...OKINO Kouko 73
- 19) Chemically- or enzymatically- modified amyloid beta peptides and their properties ...SHISHIDO Naomi 75
- 20) Sperm chromosome analysis and single cell gel electrophoresis
 assay (comet assay) using mouse spermatozoaKUSAKABE Hirokazu 77

- New JICA program "Health Administration for Regional Health Officer For Africa"
KITAMURA Kumiko / YOSHIDA Takahiko 79

- DMAT (Disaster Medical Assistant Team)FUJITA Satoshi 89

- News.....KOHGO Yutaka / IIZUKA Hajime / TANAKA Kunio / GOH Kazutomo 95

- BooksSHIMIZU Keiko / ITOH Hiroshi 105

- MaterialFUJIO Hitoshi 108

- Editor's Note / Cover Story..... 111
